Firstly, I would like to thank the invisible to whom I owe my Breath. I just skip his blessing by saying "Thank you!". What else could I say?

Secondly, I should have to thank Fiker-my Icon. He is one of the reasons why I joined this department. His support since freshman was invaluable to me. On the third place, my genuine thanks goes to my instructors; Ato Ademe (Gash Ade/Sailor) I have seen the real teacher inside you. Without any exaggeration I've never seen a teacher with your courage and spirit of teaching. Dr. Yirgalem you are so inspirational, attending your lectures was attending a historic event to me, Dr. Yismaw thank you for your endless support and guidance, Dr. Zelalem if it wasn't you, who thought me group theory, this project would be climbing *Ras Dashen* to me. Gash Tesfa you have made me as rigour as possible and that is what a teacher has to do. Dr. Tilahun, you are gifted in making things as simpler as possible. Beside my instructors my friends have played an important role in my academic life. So friends, for all the fun that we had together.. for all the knowledge we had share for all the ... I'm thankful for everything. Finally, I would like to thank my advisor Ato Fikre Bogale for bringing this beautiful topic into my insight. THANK YOU!
